**Commonwealth Small Business Construction & Design Programs**

**“JUST IN TIME TRAINING”**

The Pennsylvania Department of General Services (DGS) supervises, coordinates and oversees the design, bidding and construction of a wide range of State improvement projects totaling hundreds of millions of dollars annually. The Bureau of Small Business Opportunities works collaboratively with the Public Works Depute in order to assist Small Businesses and Small Diverse Businesses (SDBs), including minority business enterprises, women business enterprises, veteran business enterprises, and service disabled veteran business enterprises, with competing for Commonwealth design and construction opportunities.

In response to valued programmatic input the Commonwealth will soon launch its enhanced Small Business construction program. Learn how your small business can pursue both prime and sub-contracting opportunities on Commonwealth construction and design projects. This timely information and networking opportunity is a must for any small business owner.

- Find out about certifications/verifications for Small & Small Diverse Businesses
- Understand Small & Small Diverse Business program guidelines
- Learn about bidding and proposal protocol
- Know where to find construction & design project opportunities
- Develop practical marketing strategies based on available forums and information
